You can either take a taxi or walk (best via Cambridge Rail Station, which is an easy landmark to find).

Come out of station and turn right to walk through the station car park towards a footbridge over the railway. Just before you reach the bridge turn left alongside the bridge until you see a path going under the bridge. Follow the path up a stairway onto the bridge.

At the end of the footbridge turn right onto Rustat Road.

Walk along the road on the right-hand side pavement past the new apartments and housing on the right. Do this until you see a House Rustat Road 65.

Go a bit further until you see an alley way:

Please go through and turn right at the end. You have reached Clifton Road.

Follow it until you reach Granta. It has a big 300 written on it.
