

The European Materials Modelling Council

A European Network to Coordinate and Support the Industrial Uptake of Materials Modelling in Europe

EMMC Objectives

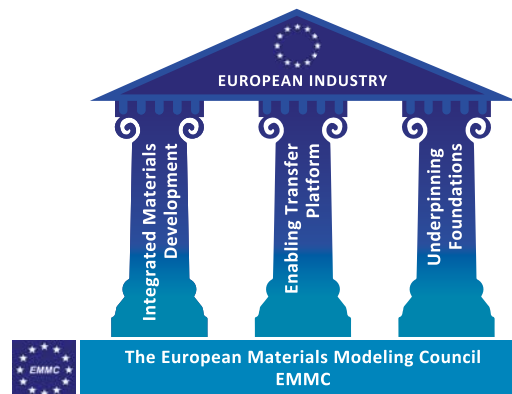

Enhance the interaction and collaboration between stakeholders

Facilitate strong and coherent foundations

Rapid transfer of innovation to industry

Support a more holistic material development

Elaborate materials modelling Roadmaps

In recognition of the importance of materials modelling for industrial innovation and the strength of Europe, the H2020 project **European Materials Modelling Council Coordination and Support Action (EMMC-CSA)** has been funded to augment and support the activities of the EMMC.

EMMC-CSA

H2020-NMPB-CSA-2016

EC-Grant agreement: 723867

Coordinator: Nadja Adamovic, TU Wien (AT)

Email: nadja.adamovic@tuwien.ac.at

This project has received funding from the European Union's Horizon 2020 research and innovation programme under Grant agreement No 723867
