

Things to know about the Webinar

To offer this webinar free of charge we are working with freeware. It is quite good but comes with some perks.

1. You may have to agree to terms and conditions before you can login.
2. It should work well if you have a headset, there are issues if people don't have a headset and go via inbuilt speakers and no mike
3. **We are not sure the phone numbers are for free. Pick your local one if you need to from the list.**
4. When you log in you must press the phone icon to get a choice for Audio

Select whichever you prefer.

5. **If the Mic&Speakers Button does not work it can help to change browsers.**
6. What are the operating system requirements for FreeConferenceCall.com?
OS: Windows 7 and up/Mac OSX 10.7 and up/Ubuntu 14.04 and up

Note for Linux: Preferred Windows Manager environment: Compiz,
Desktop Environment: Unity, Gnome
Chrome(tm) 29 or newer, Firefox® 22 or newer, Safari® 6.0 or newer
(Mac only), Internet Explorer® 10 or newer (Windows only) (Javascript)

7. Problems connecting to the screen sharing: This may be due to your firewall. Please contact your network administrator and allow firewall access to the following addresses: host: 12.7.192.0/23, 67.55.209.0/24, 162.251.180.0/23, ports UDP 6000-65534 and TCP 443, and TCP 5040-5060.
